

# 2024 FMC NSF POSE - Project Summary

Skelly FreeMoCap      <info@freemocap.org>

Tuesday 13<sup>th</sup> August, 2024

## 1 Introduction

The open source community is what the scientific community pretends to be.

Our current institutions of education and scientific research are inequitable, exclusionary by design, and fundamentally ill-equipped to address the existential threats and transformative opportunities presented by the rise and spread of high technology through a globally interconnected world.

## 2 Intellectual Merit

## 3 Broader Impacts
